Features	American Style Collection fiberglass entry doors were inspired by early 1900s residential architecture. The collection complements many popular home designs. Made with our patented AccuGrain technology, you get the look of high-grade wood with all of the durability of fiberglass. The doors have the look and feel of a real wood front door- with solid wood square edges, architecturally correct stiles, rails and panels. Unlike genuine wood doors, they resist splitting, cracking and rotting. Colors: Bronze, White, Stone, Almond	The Classic-Craft Mahogany Collection gives you elegant door styles with the look of rich mahogany made from environmentally friendly materials that hold up to weather and wear. The Mahogany Collection is made with our patented AccuGrain technology to give the look of high-grade wood, with all of the durability of fiberglass. The exterior doors in this collection have the look and feel of a real wood front door — with solid wood square edges, architecturally correct stiles, rails and panels. Unlike genuine wood doors, they resist splitting, cracking and rotting. Colors: Bronze, White, Stone, Almond.	Add the character of a rustic entryway to your home's Southwestern or European country architecture with the Classic-Craft Rustic Collection. Made of durable fiberglass, these front doors for your house have the look of real wood grain, and the simple yet authentic hand-craftsmanship of the artisans that originally created these door styles. These doors are made with our patented AccuGrain technology to give the look of high-grade wood, with all of the durability of fiberglass. The doors in this collection have the look and feel of a real wood front door-with solid wood square edges, architecturally correct stiles, rails and panels. Unlike genuine wood doors, they resist splitting, cracking and rotting. Colors: Bronze, White, Stone, Almond	Imagine the beauty of oak wood for the front door of your home with all of the added benefits of fiberglass. These doors offer deep rich grain detailing for a stunning first impression and instant curb appeal. The entry doors have the distinctive look, texture and feel of natural oak grain, but won't dent, ding, split, rot, or crack like real oak doors will over time. Our patented AccuGrain technology gives the look of high-grade wood with the long lasting durability of fiberglass. These doors in this collection are low maintenance and will retain their beauty for years to come.	Meet the very first fiberglass front door-the door that revolutionized an industry. Therma-Tru's Fiber-Classic door changed how doors are made, and still sets the standard for today's fiberglass entry doors. Our original vision was an entry door that would not crack, split, splinter, or warp like wood. The result? Therma-Tru's patented fiberglass entryway door that's durable, stylish, economical and most preferred by builders and remodelers. Fiber-Classic has the warm, rich look of hardwood, with all of the advantages of Therma-Tru fiberglass. It is made with a solid polyurethane foam core with five times the insulating value of wood. Colors: Bronze, White, Almond, Stone	Smooth-Star Fiberglass doors are crafted to withstand the dents, dings and abuse of everyday life. Their beautiful durability and smooth, ready-to-pain surface offer a crisp, clean profile that's a gratifying addition to any home-inside and out. The meticulously handcrafted, glass designs feature handsome caming and exceptional attention to detail. In addition, most of the selected styles are offered with brass, brushed nickel or black nickel caming. These doors will give your family years of dependable service. That's because Smooth-Star system components are designed and built to work together for the utmost in durability, safety and weather resistance. Features: A smooth, paintable surface, a crisp stile and rail lines comparable to a wood door, a solid polyurethane foam core with five times the insulating value of a wood door, an optional multi-point locking system for enhanced security
